

Question

Given the relative frequency table below, which of the following is the

Value Cumulative relative frequency

4	0.35
5	0.55
6	0.6
7	1

Answer Explanation

Correct answer:

Value Cumulative relative frequency

4	0.35
5	0.55
6	0.6
7	1

Remember that a cumulative frequency table adds the relative frequencies for the previous entries in the table. For example, the entry for the value **6** is

$$0.35+0.2+0.05=0.6$$

Question

The ages of the students in a creative writing seminar are listed below.

17,22,20,18,19,20,17,17,22,18,20,18,17,18,21,18,18,19,19,19,20,19,21,21

Complete the frequency table.

Age	Frequency
17	
18	
19	
20	
21	
22	

4

6

5

4

3

2

Answer Explanation
