

"Mental Health Review"

- ✓ autonomy > justice
- ✓ treat them fairly
- ✓ Best interest
- X Harm (non-maleficence)

- Fidelity → stay true to prof. promises (keep promises)
- veracity → tell the truth (be honest)
- Utilitarianism → ^{people} doing the most for people "greater good" ▼ ^{etc} ethics
(medical triage)
- treatment for pts against their will = violating pt's autonomy!
- holding down pts against their will for meds = assault or battery
↳ need doctors agreement for MH pts
- negligence → do your job "scope of practice"
↳ urgent messages need to be delivered STAT to Dr.
↳ give meds on time!
- if harm is done to pt = malpractice
- if pt refuses meds → write notes + call the Dr. !!

Negative symptoms

- flat / blunted affect
- anhedonia → inability to feel pleasure
- avergia → abnormal lack of energy
- apathy → loss of motivation / goal directed behavior
lack of interest, enthusiasm, concern
- asocialization → social withdrawal / isolationism
- loss of roles
- loss of purpose

Positive Symptoms

- auditory hallucinations → command hallucinations
- automatic obedience → robot like obedience
- waxy flexibility → statue like posture
- negativism → doing opposite of what you asked them to do.
- Catatonia - may look negative, but cons. positive
- delusions
- hallucinations
