

Week 1 Discussion

Practicum Project: Health Promotion Topics and Resources

Directions:

1. Review the Health Promotion Topics and associated Topic Resources below.
2. Select a topic for the Practicum Project. The aim of the Practicum Project is to advocate for community health through collaboration with licensed healthcare professionals and the provision of educational resources. This topic will also be used in the Week 1 discussion.

Note: Additional resources are also available in the [Chamberlain Library](#) and on government and state websites.
