

Week 2 Assignment

Evidence Summary

Name:

Date:

Directions: Identify your chosen clinical nursing practice topic in your current or previous practice. Use this template to complete the Evidence Summary Assignment addressing your selected clinical nursing practice topic as the basis for a nursing change project.

Answer the questions under each section with explanation and detail. Use complete sentences.

Correctly cite and reference information from scholarly sources that help support the change intervention. Include the Chamberlain Library permalinks for each source. Sources should be no more than five years old unless they are historical references.

Section 1: Discovery

1. Describe your selected nursing clinical practice problem. Explain your rationale for choosing this topic and summarize why this nursing clinical practice problem is the most important in your current or past practice area.
2. Define each PICOT element from the Week 2 Check-In. Use complete sentences to describe each area. Include recommended revisions provided by your instructor from the Week 2 Check-In.
 - P- (Population):
 - I- (Intervention):
 - C- (Comparison):
 - O- (Outcome):
 - T- (Time frame in months):
