Differentials ranking	Done	75% (lead/alt score) 75% (must not miss score)	1min 21sec	
Tests	Done	67%	6min 55sec	7 tests ordered, 2 correct, 0 partially correct, 0 harmful to patient, 1 missed relative to the case's list
Diagnosis	Done	100%	1min 55sec	
Management Plan	Done		34min 1sec	259 words long; the case's was 144 words
Exercises	Done	100% (of scored items only)	1min 32sec	1 of 1 correct (of scored items only)

History Notecard by Colleen Dunn on case Mark Griffin

Use this worksheet to organize your thoughts before developing a differential diagnosis list.

1. Indicate key symptoms (**Sx**) you have identified from the history. Start with the patient's reason(s) for the encounter and add additional symptoms obtained from further questioning.
2. Characterize the attributes of each symptom using "**OLD CARTS**". Capture the details in the appropriate column and row.
3. Review your findings and consider possible diagnoses that may correlate with these symptoms. (Remember to consider the patient's age and risk factors.) Use your ideas to help guide your physical examination in the next section of the case.

HPI	Sx =stomach pain	Sx =nausea/indigestion	Sx =weird bowel movements	S =vom
Onset	a couple of months ago	couple months ago	a couple months ago	a c mo
Location	abdominal pain	abdomen	stool	
Duration	all the time- better and worse periods- better with food for short time	all the time	a couple of days black bm's	a c of
Characteristics	burning, aching	burning	black stools for 2 days, went away	clear black
