Exercises	Done	82% (of scored items only)	2min 8sec	0 of 1 correct (of scored items only) 1 partially correct

History Notecard by Marla Patterson on case William Garrett

Use this worksheet to organize your thoughts before developing a differential diagnosis list.

1. Indicate key symptoms (**Sx**) you have identified from the history. Start with the patient's reason(s) for the encounter and add additional symptoms obtained from further questioning.
2. Characterize the attributes of each symptom using "**OLDCARTS**". Capture the details in the appropriate column and row.
3. Review your findings and consider possible diagnoses that may correlate with these symptoms. (Remember to consider the patient's age and risk factors.) Use your ideas to help guide your physical examination in the next section of the case.

HPI	Sx =	Sx =	Sx =	Sx =	Sx =
Onset	a few months ago				
Location	its in my upper gut, just below my breast bone				
Duration	its kind of there all the time time, sometimes its worse tha others but its bee there for several monnthhs				
Characteristics	varies from burning to aching				
Aggravating	skipping a meal makes it worse, an hours after a meal makes it worse				
Relieving	eating makes it better				
Timing / Treatments	anntacids				
Severity	2 at best, but it can be as high as 6				

Problem Statement by Marla Patterson on case William Garrett

WG is a 50 yo male complaining of stomach pain that began a few months ago. He notes the pain is constant. Rates it at 2/10 but it can be as high as a 6/10. The pain feels like a burning or aching pain. It is located in his upper gut, below his breast bone. He has one episode of coffee ground emesis and some black stools when he first noticed the pain a few months ago but nothing recently. He has some relief of the pain when he eats, for example 2 slices of bread and 2 slices of milk. He has more pain when he does not eat. BS are hyperactive. He has regular bowel movements. Rectal exam negative. He takes an aspirin daily for heart health. He takes Ibuprofen for OA of knees. Hx of 1-ppd cigarette smoker and drinks 7-10 beers weekly. ROS otherwise negative.

Attempt: 3229731
