Health Policy Analysis

Due Date

Introduction

- The purpose of this analysis is to review the statistical data regarding mental health in the Waterbury and Greater Waterbury communities and identify interventions to combat this problem.

Problem Statement

- How can patients with mental illness get the care and services they need in the Greater Waterbury and Waterbury communities?

Background

- The percentage of individuals experiencing anxiety and depression in the Greater Waterbury areas is greater than that of the entire state

TABLE 9: SELECTED MENTAL HEALTH INDICATORS, SHARE OF ADULTS, 2015-2019

	Total	White	Black
Experiencing anxiety			
Connecticut	12%	11%	15%
Greater Waterbury	13%	13%	12%
Waterbury	18%	16%	14%
Bothered by depression			
Connecticut	9%	8%	10%
Greater Waterbury	8%	7%	19%
Waterbury	15%	13%	20%
