

I can state with certainty that I have learned a great deal from this course. I now have a better understanding of how to use the AACN essentials to advance my knowledge and abilities in providing exceptional patient care. My scholarly writing skills have improved, and I now have a greater understanding of professional communication. Additionally, this course has reaffirmed the significance of evidence-based practice and upholding a respectful work environment. I intend to keep utilizing these AACN essentials as I advance through Chamberlain's family nurse practitioner program and into my future profession (American Association of Colleges of Nursing, 2011).

Upon assuming the role of family nurse practitioner, I intend to employ the AACN essentials to proficiently apply evidence-based practices, thereby providing exceptional patient care. I'm dedicated to creating a work environment where being rude and bullying others are strictly forbidden, and I'll hold those who do so accountable. In order to improve staff communication regarding patient care, I will promote teamwork. I will lead by example to make sure that leadership works together to assist nurses in delivering high-quality patient care (American Association of Colleges of Nursing, 2011).
