

Vise assignment example PLEASE FOLLOW THIS EXAMPLE.

Be prepared. Don't ask me during the call, what am I supposed to do today.

Purpose: The VISE assignment (Virtual Interactive Student Evaluation) is to evaluate student progress in clinical, based on per course clinical objectives. This will be a mid-term check to identify and assist students who may be struggling with clinical critical thinking and communication. Students who do not pass the VISE on the first attempt will be placed on a clinical PIP and given a second attempt at passing the VISE prior to course end. The student must successfully pass the VISE to pass clinical within a course.

603 – Referral to specialist - The student reviews their logs and picks one patient seen in clinical who has a complex chronic illness who needs specialist referral.

The PROFESSOR will act as specialist taking the call. The student is to do the following:

- Pick the correct specialty to refer to
- Give a SNAPPS summary to the specialist
- Answer the specialist's questions about the patient

VISE Assignment Process and Expectations

The NR603 Virtual Interactive Student Evaluation is an exercise for students to demonstrate their communication and critical thinking skills in the clinic environment. VISE in NR603 focuses on the student's ability to refer a patient to a consultant for ongoing care.

Students need to come to the call thoroughly prepared to meet the criteria for a successful referral. A successful VISE call is where the student is prepared and presents the information without needing prompting by the Faculty. Faculty may then ask any pertinent follow up questions after the patient is presented by the student.

Criteria for Successful Presentation of Referral:

- Thorough HPI
- Physical Exam completed by student
- Diagnostic tests completed with results, any treatment that has already taken place
- Outcome of the existing treatment plan
- Specialty patient is being referred to
- Reason for referral i.e., evaluate for Rheumatoid arthritis, etc...
- Actions you are looking to have the Consultant take
