

NR602 iHuman Case

Week 6 - Tommy Acker 26 m/o M CC: Tummy ache

History - all questions directed to mom

- How can I help him today
- Does he have any other symptoms or concerns we should discuss
- Does he bleed or bruise easily?
- Has anyone noticed a sudden change of behavior or personality in him?
- When and what did he last drink?
- How is his family and family life?
- Tell me about the health of his grandparents, parents and children.
- Any previous medical, surgical, or dental procedures?
- Can you tell me about his current or past medical problems he has had?
- Are his immunizations up to date?
- Does he have any allergies?
- Is he taking any over the counter medications?
- Is he taking any prescriptions medications?
- What childhood illness has he had?
- Were there any complications with his birth?
- Has he had any significant traumatic injuries or accidents?
- Is there any blood in his stool or with his bowel movement?
- How many stool diapers does your child make per day?
- How many wet diapers does your child make per day?
- Is he exposed to secondhand smoke?
- How long does the pain in his abdomen last?
- Has he had the pain in his abdomen before?
- Has he had any trauma to his abdomen?
- Does anything make his abdomen better or worse?
- When did his abdominal pain start?
- What were the events surrounding that start of his abdominal pain?
- Does he have skin problems?

Possibly ask questions about... “She denies the use of any illicit drugs, ETOH, and marijuana. Mother feels safe in community and surrounding neighborhood and feels they have adequate transportation and access to care when necessary”
